

Saverio Ranciati, Ph.D.

born in: 06/06/1988

work address: Viale Quirico Filopanti, 5
40127 Bologna (BO), Italia

e-mail: saverio.ranciati2(at)unibo.it

website: <https://savranciati.github.io>

CURRENT & PAST POSITIONS

- Research fellow (postdoc position) at Dipartimento di Scienze Statistiche, Università di Bologna (Italia), a.a. 2015-2018;
- Officer (2018-2019) of the young group of the Italian Statistical Society **ySIS**, website <https://youngsis.github.io/index.html>.

PUBLISHED & WORKING PAPERS

- Ranciati, S., Crispino, M., D'Angelo, S., Mira, A., (2018), "Understanding dependency patterns in structural and functional brain connectivity through fMRI and DTI data", *Contributions to Neural Data Science*, Springer volume "Proceedings in Mathematics & Statistics", under review.
- Ranciati, S., Vinciotti, V., Wit, E., (2017), "Identifying overlapping terrorist cells from the Noordin Top actor-event network", <https://arxiv.org/pdf/1710.10319.pdf>.
- Ranciati, S., Galimberti, G., Soffritti, G., (2017), "Bayesian Variable Selection in Linear Regression Models with non-normal Errors", *Statistical Methods and Applications*, under review.
- Ranciati, S., Galimberti, G., Soffritti, G., (2017), "Bayesian Variable Selection in Linear Regression Models with non-normal Errors", *Proceedings of CLADAG 2017, Book of short papers*.
- Ranciati, S., Wit, E., Viroli, C., (2017), "Bayesian Smooth-and-Match strategy for ordinary differential equations models that are linear in the parameters", *Statistica Neerlandica*, under review.
- Ranciati, S., Viroli, C., Wit, E., (2017), "Mixture model with multiple allocations for clustering spatially correlated observations in the analysis of ChIP-Seq data", *Biometrical Journal*, 59(6), 1301-1316.
- Ranciati, S., Viroli, C., Wit, E., (2015), "Spatio-temporal model for multiple ChIP-Seq experiments", *Statistical Applications in Genetics and Molecular Biology*, 14(2), 211-219.

EDUCATION

- ◇ *Doctorate:* joint double-degree Ph.D. at Dipartimento di Scienze Statistiche, Università di Bologna (Italia), and J.B. Institute for Mathematics and Computer Science, University of Groningen (The Netherlands); Thesis: "*Statistical modelling of spatio-temporal dependencies in NGS data*", 2016;

- ◊ *Master's Degree*: Scienze Statistiche, Thesis: “*Latest developments in non-parametric hazard function estimation*”, Dipartimento di Scienze Statistiche, Università di Bologna (Italia), 2012;
- ◊ *Bachelor of Science*: Statistica e Informatica per la Gestione delle Imprese, Thesis: “*Analisi Fattoriale Dinamica sugli ossidi d'azoto in Umbria*”, Università di Perugia (Italia), 2010.

VISITINGS & RESEARCH EXPERIENCES

- ◊ *Short Term Scientific Mission (STSM)* February 2017
STSM through COSTNET Action CA15109 at Department of Mathematics, Brunel University London, Uxbridge (U.K.).
- ◊ *Visiting PhD student* March-September 2014, March 2015
Research experience abroad at J.B. Institute for Math and Computer Science, University of Groningen, Groningen (The Netherlands);

CONFERENCES, WORKSHOPS & TALKS

- ◊ “Overlapping mixture model for network data (manet) with covariates adjustment”, (*invited talk*)
University College Dublin, Dublin (Ireland), April 2018;
- ◊ “Mixture model under overlapping clusters: an application to network data”, (*contributed session*)
COSTNET17 conference, Palma de Mallorca (Spain), October 2017;
- ◊ “Bayesian Variable Selection in Linear Regression Models with non-normal Errors”, (*contributed session*)
CLAssification and Data Analysis Group (CLADAG) 2017 conference, University of Milano-Bicocca, Milan (Italy), September 2017;
- ◊ “START Up Research” event, June 2017, Certosa di Pontignano (Siena), <http://www.congressi.unisi.it/startupresearch/group-leaders/>;
- ◊ “Mixture model with multiple allocations for clustering spatially correlated observations for the analysis of NGS data”, (*contributed session*)
CMS-ERCIM 2015 conference, University of London, London (UK), December 2015;
- ◊ “Mixture model with multiple allocation for clustering spatially correlated observations in gene expression data”, (*invited session*)
IFCS2015 conference, University of Bologna, Bologna (Italy), July 2015;
- ◊ “Spatio-temporal model for multiple ChIP-Seq Experiments”, (*contributed session*)
Statistical Systems Biology SSB 2014 workshop, University of Warwick, Coventry (UK), December 2014;
- ◊ “Modelling multiple ChIP-seq experiments via a markov random field model with spatio-temporal dependencies”, (*invited session*)
CMS-ERCIM 2014 workshop, University of Pisa, Pisa (Italy), December 2014.

	<ul style="list-style-type: none"> ◦ “Modelling multiple ChIP-Seq experiments via a Markov Random Field model with spatio-temporal dependencies”, (<i>contributed session</i>) CIBB 2014 workshop, University of Cambridge, Cambridge (UK), June 2014;
PEER-REVIEWING ACTIVITY	<i>Computational Statistics and Data Analysis</i> (ISSN: 0167-9473), <i>Statistics and Computing</i> (ISSN: 1573-1375), <i>Journal of Royal Statistical Society: Series C</i> (ISSN: 1467-9876), <i>Statistics in Medicine</i> (ISSN: 1973-2201), <i>BMC Bioinformatics</i> (ISSN: 1471-2105), <i>Statistica</i> (ISSN: 1973-2201).
TEACHING ACTIVITY	<ul style="list-style-type: none"> ◦ Adjunct Professor (1/2) in “Experimental Methodology And Data Analysis”, a.y.(s) 2017-2018; ◦ Adjunct Professor (1/2) in “Elements of Statistics”, a.y.(s) 2016-2017; ◦ Teaching assistant for “Statistical Inference”, a.y.(s) 2014-2018; ◦ Teaching assistant for “Applied Statistics”, a.y.(s) 2013-2017.
